DOMINICAN REPUBLIC / MAIMON BAY

AMBER COVE

A flexible port day, with optional outings

Confirm your port first. Amber Cove is in the Bay of Maimon, outside Puerto Plata city. Taino Bay is a separate cruise port.

1 STAY AT THE PORT

Choose a relaxed visit around the port shops, food outlets and pool area. Ask staff about current pool access, loungers, facilities and opening.

Food, drinks, cabanas and premium experiences can cost extra. Confirm charges and availability before using them.

2 EXPLORE PUERTO PLATA

Arrange a taxi, private transfer or suitable excursion in both directions. The historic city is a separate outing from Amber Cove.

Options include Central Park, the cathedral, historic streets, the Malecon and Fortaleza San Felipe. Check current opening, admission and access.

3 CHOOSE A BEACH OUTING

Amber Cove has no ocean-swimming beach within the port complex. A beach day needs separate transport and an agreed return plan.

Confirm the chosen venue, entry or minimum spend, chairs, restrooms and any package inclusions. Check local surf, weather and water-quality advice before swimming.

4 BOOK A NATURE OUTING

Damajagua is a guided activity beyond the port. Confirm the operating route, conditions, fitness and age requirements, equipment and total trip duration.

Not every visit includes all 27 waterfalls. Check land transfers and what the price includes. Choose an outing that fits your actual cruise call.

PLAN YOUR RETURN BEFORE YOU LEAVE

Record all aboard in **SHIP time**. Confirm the exact pickup point and time, full fare, currency and return journey. Work backward from the ship deadline, allowing for traffic, security, queues and the pier walk. Follow any earlier ship instructions.

Check accessible paths, vehicle boarding and venue access for your needs. Carry water, sun protection, ship ID and required identification.
